In the box you will find

- ventilation grill with gravity shutters
- user guide

Technical data

- frame material: powder painted steel
- shutter material: polyvinyl chloride
- frame color: RAL 9023
- shutter color: RAL 7024
- maximum working temperature: +50°C

About device

Ventilation grill with gravity shutters was designed with a view to end of ventilation ducts and particular those which blow out exhaust air from buliding to outside. It is intended for mounting on the wall/facade. The air flowing in the duct (e.g. by fan) rises shutters up which causes blowing exhaust air out. In the case of no air flow, the construction of grill with shutters protects before return the air back.

Features of object

- modern design
- easy installation
- wide range of objects with various dimensions
- protective epoxy coating

Dimensions

mm]↘	A	B	C	D	E
300	300	300	25	230	198,5
350	350	350		280	248,5
400	400	400		330	298,5
460	460	460		390	358,5
550	550	550		480	448,5
650*	650	650		580	548,5
800*	800	800		730	698,5
1000*	1000	1000		930	898,5

*models 650 and 800 have extra vertical strengthening crossbar, model 1000 has two crossbars.
